

THE EMPRESS EXPRESS

VOLUME XVI. No. 38

EMPRESS, ALTA. THURSDAY, Feb. 21, 1929

Price: \$2.00 Per Year

United Church

The Church School, 3:00 p.m.
Public Worship, 7:30 p.m.
You are very cordially invited
to come and worship with us.

Rev. Geo. A. Shields,
Minister.

"Spring Fever"

William Haines in a high-powered comedy, "Spring Fever," a romance of the golf course, in which trials and tribulations figure, will be shown at the Empress theatre this week. This picture is filled with Haines' own brand of humor as, "Tell It to the Marines," "Brown of Harvard" and "Slide, Kelly, Slide."

He is once more an athlete, this time a golf champion, who by a fluke of fate gets admitted to an exclusive country club where he poses as a young millionaire. He at once gets enmeshed in a series of situations that fairly shriek with comedy and golf and which get so entangled it is hard to tell which is which. But Haines gets by. He not only wins out with his expert knowledge of the game, but gets the most attractive blonde of the club set for his bride.

Don't forget the Empress
Masquerade date is March 18

DINNER TIME!

Watch your food and watch
health. Health is but a wise man's
wealth.

Health is wealth and you get
your money's worth in this
restaurant. Wholesomeness
abides in this, the best of modern
dishes with the old-fashioned
flavor.

White Lunch

Good Meals at Popular Prices
Give us a trial when in town.

C.N.R. To Build Alberta Branch Lines

Of the 605 miles of branch line construction which is proposed by the Can. National Railways during the next three years, 150 miles are in Alberta. The longest project in the province is 83 miles of new construction to run south easterly from Alliance to near Dohson on the Calgary-Saskatoon line of the C.N.R. In addition to serving whole areas of good agricultural land, this branch will considerably shorten the haul for grain and other shipments to Edmonton. From this new line a branch 25 miles in length will be built in a north-easterly direction from Bulwer. The building program in Alberta also includes the extension of the Lovers line from its present terminus at Hemlock to Seap on the Hanover-Warden line, a distance of 41 miles following the route originally projected by the Grand Trunk Pacific.

F. G. Forster Called By Death

An old time resident of the province and a valued public figure in the person of F. G. Forster died at his home in Edmonton, last week. Mr. Forster was well known among the newspaper fraternity of the province having been at one time editor of the Medicine Hat News. He later occupied the position of Assistant Public Commissioner for the Alberta Government and in recent years has been Supervisor of Licenses for the Liquor Control Board.

Local Bonspiel in Concluding Stages

The annual bonspiel opened on Tuesday, of this week in real honest winter weather, a breeze blowing and the mercury hovering around 30 below. Eleven rinks are competing, including one visiting rink from Leduc. Up to the time of going to press the Leduc rink were the only undefeated rink in the competitions. As the events now stand the winning rinks are:

O. Olwick, McFadden, W. Lench, F. Stothers, D. McEachern.

Wins Oratorical Contest

The Bossano Mail says: Miss Queenie Bramley, pupil of the Bossano High School, won the district championship in the inter-school oratorical contest. Against a strong competition from Huxley, Ross Slope and Empress, Miss Bramley carried off the honors in the district final held in Bossano last Tuesday evening, February 12th, and thereby qualified to represent the district in the southern championship. Her competition to be held in Calgary.

The judges awarded second place to Stewart McPherson of Empress. The other two contestants, Miss Lila Cliffield, of Huxley, and Miss Miller, of Ross Slope, were not ranked.

As district winner, Miss Bramley was awarded a \$10 gold piece, and the runner-up Stewart McPherson, won a \$5 gold piece. These prizes were donated by the Calgary Herald, sponsors of the contest in Southern Alberta.

All the young orators spoke on the same subject, "Canada Amongst the Nations," each of them delivered a splendid address on this most interesting subject.

The judges were: A. Griffin of Brooks; P. McLean of Glenora and Inspector Carr, of Medicine Hat. Wm. McLaws was chairman.

Knox Presbyterian Church was filled with a capacity crowd which gathered to hear the young orators. In addition to the oration a musical program was given, the contributing artists being Miss Bernice McFarlane, Miss Eleanor Hefflawer, Miss Alice Hopkins, F. Broy, violinist, and Mrs. Colborne, accompanist. W. King, principal of Bossano school, gave a humorous song and funny monologue.

Ed. Note - We understand

I.O.D.E. OFFICERS

Hon. Regent, Mrs. York.
Regent, Mrs. D. McEachern.
1st Vice-Regent, Mrs. J. N. Anderson.
2nd Vice-Regent, Mrs. W. B. Brodie.
Secretary, Mrs. D. Milne.
Treasurer, Mrs. C. R. Moore.
Religious Secretary, Mrs. M. S. Sexton.
Standard Bearer, Mrs. Mc Gill.

I.O.D.E. Treasurer's Report for 1928

Receipts:
Cash in Bank, Jan 31, '28 42.11
Membership fees 25.00
Food Sales and Pappy Tea 53.11
Sale of Poppies 62.25
Received from "Moose" 2.50
Secretary 2.50

Mr. and Mrs. Alva Ellis are visitors at the home of the former's parents. Mr. Ellis is playing in the local bonspiel and rendering a good account of himself.

that the judges took some time in deciding the winner. Miss Bramley was given a one point margin over Stewart McPherson. The deciding factor against him being "too loud in his delivery in the small hall."

Kitchener School Awarded Physical Training shield

To Principal
Public School, Empress.
Dear Sir or Madam:
Strathcona Trust Physical Training Shield No. 21

I am advised by the School Inspector that the above shield has been awarded to your school for the year ending 31st December, 1928, and I would ask you to accept my congratulations.

The present holders of this shield have been instructed to forward same to you.

The winning of this shield carries with it a scholarship of \$30.00 which has been awarded to Mr. J. Maxwell, being subject to attendance at the Advanced P.T. Course (full time) held in July - August at the Summer School, University of Alberta, said amount being placed to the teachers credit with the Registrar of the School.

All those attending must be in possession of the Grade "B" Physical Training Certificate. The course covers the Summer schools, a certificate being issued to successful students (for each year that they may take), by the Department of Education.

Yours truly,
L. W. MILLER,
(L. W. Miller) Major,
Secretary - Treasurer, Local Committee - Strathcona Trust.

Telephone Department Plans Big Expenditure

Expansion of the plant equipment and activities of the Alberta Government Telephone will involve an expenditure of approximately \$1,000,000 before 1933, it is announced by Hon. V. W. Smith, Minister of Railways and Telephones. Included in the proposed improvements is a new exchange building in Calgary, and the construction of new buildings at Hanna, Halkirk, Grande Prairie, St. Paul de Metis and possibly one other point in the province. A new building is also planned at Drumheller with a complete automatic exchange and it is expected that automatic equipment will also be installed in the Red Deer building.

The cold weather is still one of the foremost local topics.

Percy Chapman Laid To Rest

The funeral of the late Percy Chapman took place at the St. Peter and St. Paul church at Cleveland on Thursday, February 14, at 11 o'clock. The service was conducted by the Rev. Father Leo Sullivan. There was a large number of sympathizing friends and neighbors present. Among the chief mourners was Mrs. Percy Chapman and her mother. Interment was made in the church cemetery.

Home Oil Well Reaches Production

Alberta's oil production will be materially increased as the result of a strike made during past week at Home No. 1 Well in the Turner Valley field. The heavy flow of wet gas from the well is being connected with separators and the results of the first few days' test indicate that the production of naphtha will approximate that from the famous Royalty No. 4.

Interest in the bonspiel is apparently not so keen as in other years. This is probably due to the fact of the long spell of cold weather and the number of people suffering from "flu."

Heavy Windbreakers.

Just the thing
For Fanning the Grain in
and doing the Chores.
Reduced prices at
3.00 up.

"ACROSS TO
SINGAPORE"

Prices: 50c and 25c.

New Mining Regulations Have Been Approved And Are Now In Force

Ottawa.—New quartz mining regulations which were brought into effect by federal order-in-council last Friday were outlined by Hon. Charles Stewart Saturday afternoon. The new regulations, before being put into operation were submitted to the provincial governments of Alberta, Saskatchewan and Manitoba, and presumably were received with approval. The regulations governing mining in the west are now virtually the same as those in effect in the east.

The principal regulations provide: Instead of collecting royalty at the rate of 2½ per cent. of the value of the product of the mines, as at present, there is substituted a tax of 3 per cent. of the annual profits over \$10,000 and up to \$100,000, 5 per cent. of the excess over \$100,000, and up to \$500,000, 6 per cent. of the excess over \$500,000 and up to \$1,000,000, and a proportional increase of one per cent. on each additional \$500,000. The royalty will accrue January 1 in each year and will be payable October 1 following.

Four-point staking of claims, instead of two-point. This has not required unanimous approval in the west, but, after considering all factors, Mr. Stewart decided to make the change. Four-point staking will remove many difficulties which arise under two-point staking, where claims frequently overlap and matters may be straggled out, but only after many vexatious delays.

Every person engaged in prospecting on Dominion lands and every person partnership or company desiring to stake out and record mining rights shall hold a miner's license. These licenses will be issued at midnight March 31 in each year, but shall be subject to renewal in advance at any time. No license will be necessary when the final of mineral claim lease is issued and employees and others not seeking to record mining rights will not be required to be licensed.

Gigantic Wave Strikes River
New York.—Leonard Fiorino, cook, was killed and several other members of the crew were injured by a gigantic wave that surged over the bow of the White Star liner *Maestri* on the crossing completed when the ship docked here. The wave twisted and bulged, wet the mail, ruined part of the cargo and necessitated removal of the 280 third class passengers to other quarters.

Farm Loan Board Members
Ottawa, Ont.—Hon. J. A. Robb, minister of finance, has announced the appointment of Hon. E. C. Drury, former premier of Ontario and Beaudry Leman, general manager of La Banque Canadienne Nationale, as members of the Farm Loan Board. The board is now fully constituted with Mr. Robb as chairman and Dr. J. D. MacLean, former premier of British Columbia, as farm loan commissioner.

Fear Revolution
New Orleans, La.—Isaac Lehman, representative of a New York cotton goods manufacturer, arrived here with a report that United States citizens and other foreigners were fleeing Spanish Honduras in expectation of a revolution.

Manufacturers' Ass'n Ask Government For Further Tax Reductions

Hamilton, Ont.—The report of the special committee on taxation was presented at a meeting of the Canadian Manufacturers' association. It recommended consideration by the government of a method to avoid "double" and in many cases triple taxation, which, it was held, occurred through taxation of net earnings of corporations and the personal income tax, which applied to dividends. Reductions of the personal income tax, reduction and final abolition of the sales tax, and a reduction in the corporation tax were the main items recommended.

An important closed meeting of the council of the association was held at which over 200 members from

Western Pioneer Dead

Major Augustus Mills Came to Winipeg—Died in 1870

Winipeg.—A pioneer of early western Canadian military expeditions, Major Augustus Mills, 70, is dead at his home here. He came to Winipeg in 1870 as a member of the first Lord Wolseley expedition and later participated in the rebellion in 1885 as a captain in the 1st Canadian Infantry, which made a far western march in search of the Indian chief, Big Bear.

For a time he was a Dominion government land agent and then, in 1883, was appointed deputy provincial secretary at the Manitoba law courts, a position which he held at the time of his death.

Flu Fatal to Eskimos

Ten Per Cent of Population Succumbed to Disease Last July

Toronto.—Severe as the present influenza epidemic may have been in the older sections of Canada, it might be termed but an echo of the widespread disease that ravaged the Mackenzie valley district last summer. Approximately ten per cent of the Eskimo population lost their lives in the influenza epidemic which swept through the district last July, according to Archdeacon W. A. Deddes, who was in Toronto recently.

Wins L.O.D.E. Scholarship

Victoria, B.C.—Miss Sylvia Lettice Thripp, B.A., daughter of E. C. Thripp, of Kamloops, B.C., has been awarded the \$1,200 L.O.D.E. overseas post-graduate scholarship for 1920-1921. Miss Thripp is now taking her M.A. course at the University of British Columbia, where she is assistant in first year history. She intends to take up her L.O.D.E. scholarship in London, where she will study at the Institute of Historical Research, University of London.

Favor Old Age Pensions

Lethbridge, Alta.—Old age pensions will be urged upon the Alberta government by the Alberta Federation of Labor as a result of a resolution passed by the delegates at a recent session. Alberta is the only western province which has not now legislation in force and the labor men are determined that enabling laws shall be passed at the coming provincial session.

Salary Revision For Mail Clerks

Ottawa.—New classification and salary revision for mail clerks throughout the Dominion is considered probable by J. P. O'Farrell, of Quebec, president of the Dominion Railway Mail Clerks' Association. Mr. O'Farrell expressed himself thus after appearing before the Civil Service Commission with proposals along these lines.

Will Participate in Scheme

Regina.—Manitoba will again participate in the British boy immigration scheme it has been announced by Hon. Albert Prefontaine, Minister of Agriculture for Manitoba who stated that a requisition would be forwarded to the British authorities to bring 50 youths to that province this spring.

Manufacturers' Ass'n Ask Government For Further Tax Reductions

all over the Dominion were present. A luncheon was also held, when Sir Joseph Flavelle, Toronto, spoke on "Industrial Research." He said: "Premier Ferguson, some time ago promised \$1,000,000 towards industrial research if the association raised a similar amount. We have since collected \$1,000,000, and the premier has challenged us to make that \$2,000,000, with the promise that the government would advance a like amount. It is for us to accept this challenge," said P. F. McNeppeny, chairman of the Ontario Association of Manufacturers. Sir Joseph Flavelle said that Canadian manufacturers were behind their British and American counterparts in applying science to their business.

Reparations Conference

Reported Meeting Will Be Held In Paris In Feb.—ruary

Paris.—It has been intimated that the reparations conference will meet in Paris about February 9, and in addition to Owen D. Young, former general agent of reparations, J. Pierpont Morgan is expected to take an important part in the discussions.

As far as could be learned from a canvass of the interested officials no one seems to have any definite plan to submit. All the experts have ideas and some have a few constructive suggestions, but none have extensive programs.

The British experts, it is understood, will assume a waiting attitude, and the initial discussion is expected to be between France and Germany. The Italians will content themselves with trying to retain what they have already secured and Japan will trust to what turns up.

Will Sail For England

New Earl of Egmout to Leave About 2nd of February

Calgary.—The new Earl of Egmout, Frederick George Trevelyan Percival, who for the past thirty years has been ranching in the Calgary district and who recently felt in a big estate in Great Britain, will leave about the end of February for England.

He will be accompanied by his fourteen-year-old son and heir, the Hon. Frederick George Moore Percival, and Mr. and Mrs. Harry Trimmer, of Fridalia, who have been friends of the new earl for many years.

Capital of Barclay's Bank

Amount Will Be \$500,000 With Same Sum as Reserve

London.—Barclay's Bank of Canada, when incorporated, will have a capital of \$500,000 and a reserve of a similar amount. F. C. Goodenough, chairman of Barclay's Bank, Limited, said at the same meeting.

Sir Robert Laird Borden, former premier of Canada, had accepted the chairmanship of the new bank and the directors included Premier L. A. Taschereau of Quebec, he added. Application for a charter for the bank will be made at the coming session of the Canadian parliament.

Ask Customs Rebate

Ottawa.—The government is being asked by the British Columbia Sugar Refining Company to include in the forthcoming estimates the sum of \$26,824.88 with interest, being the balance of \$26,358.82 claimed to have been overpaid by the company in custom duties.

Boy Too Poisoned

Toronto.—The proposed tour of 1,000 British boys to Canada and 1,000 Canadian boys to Brandon has been postponed until 1920, according to a cable received here by the Toronto board of education.

CANDIDATE FOR THIRONE

Count Folke Bernadotte, of Sweden, shown above, with his bride, formerly Miss Estelle Mancy, of Pleasantville, N.Y., is one of the foremost candidates for the throne of the United Baltic Kingdom, which is proposed to form by merging Estonia, Latvia and Lithuania.

RETIRE FROM BUSINESS

After 42 years as assistant manager of western business for the Canadian Bank of Commerce, C. W. Rowley has retired from business.

He is recognized as one of the leading bankers of Canada, and is well known in the west.

After 42 years as assistant manager of western business for the Canadian Bank of Commerce, C. W. Rowley has retired from business. He is recognized as one of the leading bankers of Canada, and is well known in the west.

The express was plunging along at 55 miles an hour in the dead of night when the crash occurred. The engineer of the express, which was heavily laden, was apparently blind to all signals. In their excitement over the derailed local train station officials apparently forgot about the oncoming Eschschach express, which plunged into the passenger coaches of the local train like a catapult.

Railroad Wreck Was Caused by Drunkenness

Rumanian Train Crew Responsible For Death of Fourteen Persons

Toronto.—Rumanian, Roumania.—Railroad inspectors said that drunkenness on the part of the engineer and the conductor of the Eschschach-Toronto express cost the lives of 14 persons. In addition to the fatalities about two score passengers were injured at Franciscu, near here, when the express crashed into a local train which had been derailed.

The express was plunging along at 55 miles an hour in the dead of night when the crash occurred. The engineer of the express, which was heavily laden, was apparently blind to all signals. In their excitement over the derailed local train station officials apparently forgot about the oncoming Eschschach express, which plunged into the passenger coaches of the local train like a catapult.

Free Trip Offered Students

Paris.—A free trip for Montreal to Paris with expenses for a 10-day sojourn at his hotel to the student graduating with highest honors at Canadian Universities is to be offered by J. G. McNeill, administrator of a Paris Hotel, if arrangements can be made with Canadian University heads. McNeill is president of several hotels in France and Switzerland.

Boy Too Poisoned
Toronto.—The proposed tour of 1,000 British boys to Canada and 1,000 Canadian boys to Brandon has been postponed until 1920, according to a cable received here by the Toronto board of education.

Grain Enquiry May Be Extended Over Three Western Provinces

Asks for Government Aid

Red Cross Society Requests Contribution Towards Its Support

Ottawa.—Since the war the total disbursements upon Red Cross activities throughout Canada have amounted to approximately seven million dollars. The cost of the national support of this work has been \$927,280, and this has been met entirely from the capital funds of the society.

The above facts are among a large number comprised in a brief which was presented to Premier Mackenzie King and Hon. James A. Robb, minister of finance, by a delegation representing the Red Cross Society. The delegation came to the government to ask for a contribution of \$25,000 for its support this year.

Premier Mackenzie King, while expressing his personal sympathy with the Red Cross and appreciation of what the society has accomplished expressed the opinion that there was no government assistance to such an organization as the Red Cross. The danger was that the people upon which it must depend for its support would become indifferent and fail to contribute when they realized that it had obtained government backing.

Mr. King assured the delegation that he would place its brief before his colleagues, and he said that they must not feel that his remarks were intended merely to discourage.

Great Increase Shown In Canadian Trade

Advance of Nearly 25,000,000 During Last Nine Months

Ottawa.—Canada's total trade advanced nearly \$25,000,000 during the last nine months of 1919. The total export of goods and services was \$17,733,002,834 for the corresponding period in 1917.

Figures were made available at the department of national revenue. Domestic exports were valued at \$11,047,641, an increase of \$12,152,787 over the comparative figure of \$850,394,267 in the previous year. Wheat exports alone moved upward more than \$81,000,000, while newsprint and automobiles were substantially heavier.

Receives New Appointment

Ottawa.—Canada's recently appointed chief of staff of the Department of National Defence, Brig. Gen. A. G. L. McNaughton, has been elevated to the rank of Major-General. The appointment is post dated to take effect from January 1, 1920.

Tennis Champion Engaged

Berkley, Calif.—Engagement of Helen Wilson, national women's tennis champion, to Frederick Shumway Moody, Jr., San Francisco stock broker, has been announced.

Children Victims of Ranch Fire

Winipeg.—Two young children, one six months old and the other two years, were burned to death when the house of a ranch house near Arden, Manitoba, south of here.

United Farmers of B.C. Will Enter Appeal For Better Freight Rates

Vancouver.—Backed by the United Farmers of the three prairie provinces, the United Farmers of B.C. will carry British Columbia's claim for better freight rates to the governor-in-council at Ottawa.

The appeal has been prepared and forwarded to Ottawa by G. G. McGeer, K.C. The appeal involves three requests: That export grain rates on the Canadian Pacific Railway to Vancouver be reduced to the level obtaining at Port William; that domestic grain and flour rates over both trans-continental lines be reduced to the level obtaining to Port William; and the removal of the mountain differential in all freight rates covering the movement of all traffic into, from or through British Columbia.

Mr. McGeer will conduct the case at Ottawa when argument is heard. Mr. McGeer will also continue his appeal to the board of railway commissioners for leave to appeal to the Supreme Court of Canada from the commissioners' decision in the matter of domestic grain rates.

Mr. McGeer announced his intention of appealing direct to the governor-in-council before the board of railway commissioners. Later, however, when the board gave permission to Leon J. Ladner, K.C., who represented the attorney-general of British Columbia, permission to make formal application for extension of time in which the appeal would be made, Mr. McGeer said that if the attorney-general was going ahead with the appeal he was also going to ask for leave to appeal on behalf of his clients to the supreme court.

Regina.—With the object of expediting the work of the Royal Commission, appointed recently by the Government of Saskatchewan to inquire into the grading, mixing, handling and marketing of grain

which Commission is now sitting in Regina following a series of public meetings at other points in the Province—a Royal Commission was issued to its members from the Government of the Province of Alberta under the signature of Hon. Jas. E. Brownlee, Premier of Alberta and President of Council, signed by the Lieutenant-Governor of that Province.

It is also understood that the Government of Manitoba has agreed to issue a similar Commission to the Province.

The issuance of the Alberta Commission places the members of the Saskatchewan Inquiring Commission in this position: That should they decide to carry their inquiry into Alberta they will have all the compeled to do so legally. A Royal Commission of that province appointed under the Public Inquiries Act of Alberta.

In its first time in the history of western Canada, an enquiring body of one province has, by the action of the Alberta government become the enquiring body of a sister province. The Commission, as issued by the Alberta authorities, appoints Chief Justice Brown, Dean Rutherford and J. A. Stoneman, the members of the Saskatchewan Commission in Alberta with F. H. Hedges, deputy minister of agriculture for Saskatchewan Commission, secretary to the same body in Alberta.

In its working, the official document from Alberta is similar to that issued by the Saskatchewan Government and permits the Saskatchewan Commissioners to hold public sittings in Alberta, summon witnesses, take evidence under oath, and to depose the testimony of witnesses and production of papers and, generally to carry out its inquiry in that province in the same manner as it has done in Saskatchewan and with exactly the same powers as it now possesses.

Farm Loan Board

Ottawa.—While no announcement has yet been made as to the personnel of the farm loan board which will act with Dr. J. D. MacLean, former Premier of British Columbia, and recently appointed to the chairmanship of that body, the understanding in the capital is that Hon. E. C. Drury, former premier of Ontario, and Beaudry Leman, president of the Banque Canadienne Nationale, will be members.

Children Victims of Ranch Fire

Winipeg.—Two young children, one six months old and the other two years, were burned to death when the house of a ranch house near Arden, Manitoba, south of here.

Good and Poor Crops Cost About the Same, But Profits Come From Use of Good Seed

Outside of a little extra expense in harvesting, the cost of producing a good crop and a poor one is about the same, but the profits to the grower of the two vary widely. Usually an average crop barely pays the cost of growing, and a poor one registers a loss. On account of the overhead, which remains fairly constant, despite the yield, it is of prime importance to the producer to get the very highest returns possible from his land. In this connection the seed used is one of the most important factors. Farmers have no control over sunshine, moisture or storms. They have little protection against early or late frosts, but they have very definite control over seed. It is to get production to exercise this control that the Provincial and Federal governments are co-operating in putting on how seed costs paigns. "Clean, sound, plump, well graded seed will produce from 10 to 100 per cent. more crop than weed-infested, ungraded seed," states Hon. John S. Martin, Ontario Minister of Agriculture, who points out that increased crop yields mean increased production and that the lowering of this cost is the best way to increase farm products. He advises the purchasing of the seed supply from reliable seed houses or careful growers from which, incidentally, the seed houses purchase their supplies, which are cleaned up by them and government graded before being offered for sale.

Not only does dirty seed produce a smaller crop for every seed sown, because the poor grain will not yield as high an average, but plump, clean graded seed, but there is a direct loss from the growth of the weeds in this supply. Weeds occupy a considerable portion of the land that should be occupied by the grain, and, in addition to this, going to seed usually before the regular crop is ready to harvest. They pollute the land for another year.

"The cost of the seed is a minor factor. According to the Dominion Bureau of Statistics, the average yield of oats in Canada for the last ten years runs slightly under 31 bushels per acre, which at current prices are worth about \$18. The extra cost of good, clean, graded seed over the commercial quality for one acre of oats would not amount to more than a dollar, but where this good graded seed is used, the return should run, according to Government figures, at the very least 40 bushels to the acre. In other words, for an expenditure of only one dollar the returns in dollars and cents would be increased by over \$5 per acre."

Subject To Revision
Overheard in the fur trade—two salesmen speaking:
"Vat was your holiday business, Maurice?"
"Hundred and ten thousand dollars, Sidney."
"Vat?"
"As true as I'm alive. How much you get?"
"Hundred and thirty thousand."
"You lie to me!"
"Well, you come down a little, I come down a little."

Immigrants Arrive
The first party of immigrants from Canada under the provisions of the £10 fare scheme worked out by the British and Canadian governments, arrived recently in Halifax on the Cunarder Antonia and the White Star liner "Laurentic." They entered Canada after arrival for placement on Canadian farms.

A young man can spare the arm that it takes to hug a girl while driving, but he can't spare the mind that it takes to operate the arm!

"Meet me in the Art Museum. It is heated—and there is never any body there."—Schopenhauer, Zurich.

The Purser's Reward

Received Two Half-Crowns From Millionaire For Special Attention
This story is told of a remarkable case of self-control in one of the largest liners on the Atlantic service. The owners of the ship had given instructions that a certain millionaire who was a passenger should receive special attention, and that everything should be done to make his trip thoroughly enjoyable. The purser saw to it that these instructions were carried out to the letter and the favored passenger was treated like a royal personage. So far so good.

At the end of the voyage the purser received a visit from him. "I just wanted to tell you that I'm very grateful for all you have done for me," he said. "This has been the most delightful trip I have ever made, and I feel I'd like to make you a little present." With these words the millionaire pushed through the grill of the purser's office two half-crowns.

Without the flicker of an eyelid the purser picked up the coins. "Thank you very much, sir," he said. "It is most kind of you." Then passing the money over his shoulder to a very subordinate member of his staff, he added: "But I think this present should be given to Mr. So-and-So, here, sir. You see, he's a married man."

Medicine Hat Greenhouse

Expansion Plan Is Necessary To Meet Volume Of Trade
"Although the Medicine Hat Greenhouse, Limited, has 170,000 chrysanthemums, 25,000 roses, and 94,000 carnations in bloom during December, the directors, at the quarterly meeting held the other day, unanimously agreed that expansion was necessary and authorized Fred Ward, the manager, to proceed with a \$200,000 plan. The expansion of the greenhouse, augmenting the eight and a half acres already under glass.

Something new in rompers for wee fashionables of 2, 4 and 6 years. It has raglan sleeves gathered into narrow bands. The rompers are straight at front, with tiny gathers at neck, which is finished with a hand collar. They close at back with a drop seat, with left leg left free, and finished with buttoned buttonholes, which gives it an unusually smart effect. Patch pocket on right side for "hanky." They are adorable in pale blue sateen finish cotton, or in white with white collar band, cuffs and pocket with blue bone buttons. Candy striped percale with plain plique in predominant tones, kindergarten prints in nursery themes, all green chambray with white plique, tan cotton rep with brown rep. Plaque with blue jersey with tan jersey, and printed plique with plain plique are special suggestions for Style No. 344. Pattern price 25 cents in stamps or coin (coin is preferred).

Slaves To Ambition

Men Not Wholly Successful Who Cannot Enjoy Leisure
How much of your time and vitality should you give to business? This eternal question is raised afresh by the death of George F. Young, chairman of Standard Oil of New Jersey, at 66, a victim of overwork. A poor boy, he early determined to make his money, and he has been devoted to his job, made progress, found more and more to do, and he died with zest and enthusiasm. He was a chronic addict to work, more work and still more work. He was rewarded by election to the chairmanship of the greatest Standard Oil company of them all. Devoted associates and friends strove to induce him to relax, but his love for work had become incurable. And now he has died, 20 years before his time.

Other men, not a few, are leading similar lives, shutting out all but their daily round of onerous duties. Ambition enslaves them. They find satisfaction only in achievement, but achievement proves merely a stepping stone to a fresh achievement. Only sickness, then death, can stay them.

Theodore Roosevelt declared he would rather wear out than rust in the nest. But the pace that kills was his own. In my humble judgment, that man is not wholly successful who cannot so organize his activities as to permit of rational amount of leisure, relaxation and enjoyment of social pleasures.

Fertilizing Strawberries

Subject Discussed By Treating Plants With Different Fertilizers On Different Dates

Unless crop growers who use commercial fertilizers make a study of the effects of applications to crop growth valuable material may be lost. A study of the subject by the horticulturists of the Department of Agriculture, at Ottawa, leads to the conclusion that the science of application is a highly important factor where there is a deficiency of any particular plant food. The usefulness of spring applications of nitrogen, it was found, is largely dependent upon the growth conditions of the plant in the previous fall. In a study of the subject the strawberry was used and treated with different fertilizers at different dates. The work was supervised by Mr. B. Davis and H. Hill, of the Horticultural Division of the Experimental Farms, and is described in a new pamphlet numbered 98, of the Department of Agriculture, which shows in coloured plates the appearance of the foliage of plants grown separately under conditions of deficiency in nitrogen, potash and phosphorus. It was clearly brought out that plants have been starved during the fruit bud formation period for either element, very early spring correction of the starvation results in increased flower production and consequent yield of fruit.

Winter Flying In Canada

The handings of winter flying in Canada have now been largely overdone. Year-round operations are increasing, greatly to the benefit of the operating companies which can now keep their aircraft in constant work.

Parson: "Do you know where little boy goes to when they smoke?"
Boy: "Yes, up the alley."

ASSISTS INDUSTRY

Prohibitions are under way by the committee of the American Automobile Association to arrange for Mayor H. O. D. Segrave, British racing driver, to conduct speed tests at Daytona Beach, Fla., where he expects to travel 240 miles an hour. Segrave's machine, the "Golden Arrow," is constructed on radical ideas of streamlining, the association announced, and is expected to gain speed through design rather than brute strength.

The machine is powered by a 13-cylinder Napier airplane engine with the hood fitted over the engine like a glove. The length of the car over all is 25 feet, and its width 8 feet. It weighs two and one-half tons. In first gear the machine is said to make 50 miles an hour, 160 miles an hour in second gear, and more than 240 miles an hour in top gear.

Arranging For Speed Tests

British Auto Races Expected To Travel 240 Miles An Hour

Preparations are under way by the committee of the American Automobile Association to arrange for Mayor H. O. D. Segrave, British racing driver, to conduct speed tests at Daytona Beach, Fla., where he expects to travel 240 miles an hour. Segrave's machine, the "Golden Arrow," is constructed on radical ideas of streamlining, the association announced, and is expected to gain speed through design rather than brute strength.

The machine is powered by a 13-cylinder Napier airplane engine with the hood fitted over the engine like a glove. The length of the car over all is 25 feet, and its width 8 feet. It weighs two and one-half tons. In first gear the machine is said to make 50 miles an hour, 160 miles an hour in second gear, and more than 240 miles an hour in top gear.

Ice may be used to cool the water used in the engine. Speed tests at Daytona Beach are expected to start in March, the association said.

The present record of 297.552 miles an hour is held by Ray Keech, American driver.

Educating The Negro

During the last ten years, colleges for negroes in the United States have doubled in number, and have increased their enrolment six hundred per cent. Special attention is being given to the training of men and women for professional work, and yet there is but one negro physician amongst 3,343 of the negro population, while there is one white doctor to every 23 whites.

Rubbing It In
Miss Leftover—Dad's going to give me a carved cedar hoop chest for a birthday present.

Miss Tartie—That'll be nice. Cedar's mothproof, so your things will keep years and years in it.

PAYS TRIBUTE TO DEAD EXPLORER

En route from the United States to Antarctic in an attempt to reach the South Pole by air, Commander Richard E. Byrd, stopped over at Christchurch, New Zealand, to lay a wreath upon the memorial erected there to Captain Robert Falcon Scott, the British explorer, who reached the South Pole on January 17, 1912. Byrd, who lost his life on the return trip, dying of cold and starvation when within eleven miles of one of his food and supply depots. In the illustration the American leader is seen as he appeared at Christchurch while delivering a eulogy of the Briton's achievement and character. (2) is a picture of the late Captain Scott, while (3) shows Byrd saluting the Scott memorial at Christchurch, after having placed a wreath at its base.

The Staggering Load Carried By the British Government As A Result Of The Great War

Flower Guide For All Canada

A New Edition Of A Most Useful Work Is Now Available

The bulletin "Annual Flowers," issued by the Department of Agriculture, at Ottawa, is a most valuable guide in large editions has had to be repeatedly reprinted to meet an extraordinary demand for it. A new edition of this wonderful manual work by Miss Isabella Preston, specialist in ornamental horticulture at the Experimental Farm, Ottawa, is a very attractive booklet, which not only describes the thousands of varieties but shows many of the blooms arranged in vases, as well as general views of flower beds and borders.

This Bulletin is useful as a guide in all the provinces, as it gives the names of twelve varieties that have done best at each of the twenty-one Experimental Farms and Stations distributed over the different provinces.

This booklet, which is Bulletin No. 60, and available at the Publications Branch, Department of Agriculture, Ottawa, is a trustworthy guide to one when studying the seed catalogues that arrive in the homes at this season of the year.

Lead Production In Canada

Greater Part Of Lead Produced In B.C.

Much the greater part of the lead produced in Canada comes from the refinery at Trail, British Columbia, which treats lead concentrates from the Sullivan lead-zinc mine at Kimberley. The output of this mine far exceeds that of all other Canadian lead mines put together. There is also a considerable production from numerous silver-lead and silver-lead-zinc mines in the Kootenay district and other parts of British Columbia. The Yukon output is silver-lead ore from the Mayo district, that of Ontario is derived from the Galesia mine, Carleton Place, and Quebec's output is lead concentrates from the Notre-Dame-des-Anges lead-zinc mine.

Keeps Things Shining

United States Ships Shine Polish To Many Nations

Uncle Sam is one of the world's busiest boot-blacks. He helps shine the shoes of other nations. This became evident when the Department of Commerce announced that 2,741,829 pounds of shoe polish valued at \$766,326 was shipped by American firms to other countries during the first ten months of 1928.

The greater part of this went to provide glittering shoes and boots for Cubans, Canadians and South Americans. Europe, the report showed makes most of her polish at home.

Housewife (employing new girl): I hope you had no quarrel with your last mistress when you left her?
Maid—Oh, no! She was taking a bath and I just looked her in, took my belongings and left.

By religion, the Tamil Indian will not eat flesh.

On of the most striking statements issued recently by the British Government in relation to the burden of debt entailed by the Great War, was the announcement made by the Minister of Finance, who said that by March, 1929, \$4,300,000,000 would have been expended in pensions to injured and disabled ex-service men. This is an astounding statement, and speaks convincingly of Britain's gigantic effort in the terrible struggle of a decade ago.

The number on the pension roll totals 970,000, aggregating with dependent wives and families, 1,500,000 persons. Final awards on life pensions were granted to 370,000 officers and men.

Of the 14 years of the administration the department has spent on medical treatment \$275,000,000; on special allowances to patients and families during treatment \$175,000,000, and is spending yearly on this branch of war \$100,000,000. Since 1927 the Ministry of Pensions and National Insurance has expended over \$240,000,000 in the training of ex-service, disabled and other men, including allowances to families during training. A sum of \$50,000,000 was spent in civil liabilities grants. The number of unemployed disabled men has been reduced to 19,000, of whom only 7,000 are classified as men whose disablement makes it difficult for them to work at their former occupations, or at similar ones.

Moreover, the policy adopted of remunerating ex-servicemen to give work to disabled men has led to the engagement of 380,000 men. The expenditure of the Ministry of Pensions for the current year is \$284,000,000. A comparison of statistics shows that while Great Britain has actually expended \$2,025,000,000, France has spent \$2,230,000,000, and Germany \$1,750,000,000. One creditable feature of the statement is that the number of unemployment among disabled ex-service men is smaller than among the civilian population.

In addition to this tremendous outlay for pensions to disabled men, Britain has been paying for the British Treasury to do well as providing for the recovery of the nation from the economic impoverishment caused by the war. It is a record of which the people of the British nation everywhere may well be proud.

Research Bureau

Empire-Wide Research Bureau Would Greatly Benefit Canada

In the opinion of Dr. J. H. Grisdale, Deputy Minister of Agriculture, and others sponsoring the Empire Research Bureau, the Dominion will stand to benefit materially by such an organization. The Bureau will give special study to self-reliance, animal nutrition, animal health, animal genetics, agricultural pathology, plant genetics and fruit production. The chairman is Sir Robert Greig, who is chairman of the Scottish Board of Agriculture, and was a recent visitor to Canada.

Oldest British Doctor Dead

Dr. David Maurice Bennett, believed to be England's oldest doctor is dead at the age of 99. A poet as well as a man of medicine, the late Sir David Bennett had a long and varied career. He was knighted at the age of 91 for his patriotic poetry.

A group of Indian women, aided by English and American women, are actively working for the betterment of women in India.

"Come here and be spanked. To. But I haven't done anything." "No, but I shall be here tomorrow to see your school report." — Felix Mee, Paris.

Europe Knows Canada Better

Visitor From British Says Investors

"Every year there is a more intelligent conception of Canada in the minds of the people, not only of the British Isles, but of the European countries in general," said C. J. Smith, European vice-president of the Canadian National Railways, who is visiting Canada for the first time in two years, to discuss matters with the Canadian National officials as well as with officers of the shipping organizations with which the Canadian National has its traffic connections. He will visit the company's territory both in Canada and in the United States.

Mr. Smith said it would surprise Canadians to learn how well the principal characteristics of Canada were now understood abroad. "The visit of Sir Henry Thornton to Europe, during the past year, brought Canada to the front as never before, and people at present are extremely sensible of the prosperity which exists in this Dominion, together with the opportunities available for investment here."

"There is no chance of the interest in Canada diminishing," he said, "and the leading British financial men, such as Lord Melchett and other leaders in mineral and industrial fields of development, are having their effect of assuring the European investor that Canada is really worth while and is likely to become more so."

Speaking of the traffic and business outlook as between Canada and the British Isles and other European countries, Mr. Smith stated that the work of the Canadian National System in developing both trade and travel, emigration and settlement, was being constantly extended over Europe. During last year, he said the Canadian National had handled more new settlers into Western Canada than ever before, there being an increase of 56 per cent over the figures for the preceding year. In addition to this growing emigration traffic, there is a constant growth in the freight handled by our system between Canada and Europe in both directions, and there is also a healthy growth in the tourist trade. The Canadian National is representative of virtually every European country today, though in the matter of attempting to provide satisfactory settlers for the vacant lands of the Dominion, our efforts are chiefly confined to securing British and Nordic people generally, and getting for Canada those immigrants who are likely to become good Canadian agriculturists.

"The Canadian railways," Mr. Smith continued, "are considered models of efficiency in operation, not only in Great Britain, but in other European countries, several of which including France, are preparing to send groups of experts over here to study at first hand the principles and operation of the Canadian systems."

The launching and placing in service of the five new vessels of the Canadian National Steamships for the Canada-West Indies trade development had aroused keen interest throughout Britain, Mr. Smith said, and it had demonstrated that Canada desired to develop facilities for the encouragement of her trade within the empire, and also that the Dominion was keen to take advantage of all opportunities offering for improving her position.

Production Of Canard Foods

The development in the production of canard foods in Canada has shown a remarkable expansion since the beginning of this century. The principal commodities thus preserved are fruits, vegetables, meats and fish. The industry constitutes an important market for the tin, wood box, paper, and printing trades.

"And how many times have you filled in your examinations?"

Tomorrow will be the fourth—

Page Gates, Verdun.

Choosing Flowers For the Garden

The Night Varieties To Cultivate With Hope Of Success

With the lengthening of the days and the coming of summer, the seed catalogues, there come thoughts of gardening. When going through the attractive seed catalogues the ardent flower grower would like to add to his garden acreage so that he may be able to grow many of the beautiful plants pictured and described therein. When one cannot extend the garden boundary it becomes a question as to the kinds of flowers and the varieties of them that one may grow with some hope of success. The booklet, "Annual Flowers," issued by the Department of Agriculture, at Ottawa, is of great assistance to the flower grower, simplifying the selection to be made when ordering or planting the seed. This booklet, Bulletin No. 60, which has been written by Miss Isabella Preston, specialist in ornamental horticulture, at the Department of Agriculture, and available at the Publications Branch of the Department, gives hints on the starting of annual flowers from seed and in growing them during the summer. It also contains a very long list of varieties of annuals that have been tested in the experimental farms most of them during many successive seasons. Many of the flowers are illustrated and all of them described as to the colour, characteristics, and season of blooming.

A Queer German Law

No Come Back After Six Weeks If Men Declared Dead In Error

In Germany, when you have been declared dead in error, you must protest that you are alive within six weeks of the date of the mistake or remain dead for ever after. This singular law is responsible for the fact that a soldier named Wobke, who was declared dead by a judge, was allowed to return to his home, the possession of his own property, which was dispersed to his heirs. Since the end of the war Herr Wobke has been trying to "come alive," but the authorities say they cannot do anything about it; he is legally dead, and they cannot afford so many years, rearsure him. The only Government department that has given him any satisfaction, if it is to be believed, is the Income Tax office, which has been willing to receive his taxes regularly. Seaman Wobke has appeared to the Reichstag and the Deputy, Herr Biedermann, has occupied himself with the matter, but without success. It is suggested that Herr Wobke might succeed in recovering his status if he committed a murder. A dead man cannot kill a live man; therefore, Wobke must be alive.

Educators Are Allies

Systems Differ But All Have One Aim Says Hon. Vincent Massey

The realities of international affairs are nowhere better understood than in the realm of education. Hon. Vincent Massey, Canadian Minister at Washington, told the Association of American Colleges at Chatham, N. Y., today, adding that in the realm of the mind there can be no disharmony between communities.

The educational systems of different countries may differ, he said, "but it is the habit of educators to regard themselves less as rivals than as allies in common cause." He spoke in praise of the purely college institution, peculiar to the English speaking world, created "that youth might be fitted for public employment both in church and state."

Reparations and Debts

The New York Times says: "Our Government has consistently argued that German reparations do not concern the United States, and have no relation whatever to the war debts owed to our treasury by England, France and the others. This contention is, of course, legally correct, it may also be mathematically. In the documents on the treasury books, reparations are distinct from the war debts. Yet everybody knows that, in fact, they are linked together and cannot in the final settlement be kept apart."

Forms Northern Link

The Swift-Windermere Highway is the final and northern link in the great Grand Circle Tour.

This route covers approximately 5,000 miles in the Canadian and the western United States, touching sixteen national parks, four in Canada and twelve in the United States.

War Medals Unclaimed

Not Only For World War But For Penian Raids and Red River

Rebels

A total of 63,000 Canadians lost their lives either during the great war or died subsequently from causes directly attributed to war service. This is disclosed in the figures or plaques and scrolls that have already been issued from the department of national defence to the next-of-kin of the nation's fatal war casualties.

It is more than ten years since hostilities ceased, yet many of those plaques remain unclaimed, while thousands of war medals continue to repose in the department unclaimed. This situation is not peculiar alone to the great war, of 11,890 Canadian service medals not yet delivered to their owners about 10,000 are for the Penian raids of 1906 and 1907, and for the Red River rebellion of 1885.

It is pointed out by G. J. Desbarats, deputy minister of national defence, that only those who receive the bounty in connection with the Penian raids are entitled also to the medals.

A New Occupation

"Airport Greeter" Is Title of Texas University Student

"Airport Greeter" is a new occupation. It does not necessarily require a college education but the first to follow the profession is a University of Texas student, line captain of the Loughboro football team, winner of the 1928 Southwest Conference title.

"Gladhander" Ike Sewell will greet the air arrivals at the Fort Worth flying field. He is an air plane stunt pilot; spent a vacation touring Europe by bicycle and writes sport columns for six Texas newspapers.

Would Vote On War

A plan under which a war of aggression would not be waged by the United States until its declaration was ratified by a majority of the voters of the country was submitted to Congress by Representative Hamilton Fish, Jr., Republican, New York.

New Housemaid: "We look things pretty easy at my last place." Cook: "Well, you can't here. They keep everything locked up."

Harvesting Canada

Water-Power Resources

Report Shows 5,338,000 Horse-Power Now In Operation

With world interest centered upon the effort being put forth in almost every civilized country to secure additional supplies of low-priced power for the needs of industry, the annual review of hydro-electric progress in Canada by Hon. Charles Stewart, Minister of the Interior, is of timely significance, indicating as it does, that throughout the Dominion the greatest activity prevails in harnessing for industrial, commercial and domestic use the advantageously situated and ample water-power resources of the country.

During the year 1928 the energy of the waterwheels or turbines actually installed and brought into operation amounted to 550,000 horse-power, thus bringing the total for the whole Dominion to 5,338,000 horse-power. In addition to this large increase, there are many projects under active construction, some of them nearing completion and others just recently initiated, whose combined installations will result in adding much to the country's total.

There are also many projects of magnitude in the formative stage, some of which will undoubtedly be undertaken in the near future—Regina Daily Post.

Not His Responsibility

A Scotch widow who had lost her husband in a railroad accident succeeded in getting two of her fellow countrymen to agree to bring up his child in case she died when it was born.

It happened that the mother died before birth to twins. One of the Scotchmen was away at the time, but he received the following telegram from his friend who had joined in the promise:

"Twins born today. Mother dead. Sky twin alive."

A Silencer

Young Lady — I want a howl, please.

Smart Young Clerk — I'm at your service.

Young Lady (eying him closely) — Yes, but I want a while one—not a green one.

The ancient Egyptian priests preserved a rigid celibacy.

ALBERTA WHEAT POOL ELEVATORS

The above map shows the progress of the Alberta Wheat Pool Elevator building company, elevators during the past three years.

In the fall of 1928, three country elevators were in operation. With the close of the year 1928, the number of these elevators had increased to 320. Furthermore the elevator system has been paid for as built. The capital to provide for the building of this elevator system was provided for by annual deductions of 2 cents a bushel on all wheat handled. In three years the elevator reserve has reached the total of \$3,653,434.57.

The Alberta Pool elevator system handled 27½ million bushels from the 1927 crop, or 38.57 per cent of the total pool handlings. This year the system has already handled over 20,000,000 bushels, and hopes to handle close to 60 per cent of all wheat delivered to the Alberta Pool.

The location of pool elevators is decided on the basis of deliveries of wheat to the elevators. The first where the larger pool deliveries are made. This year at least one hundred new elevators will be built. Pool members who deliver their wheat to pool elevators participate in the excess earnings of these elevators on a patronage basis. Last year close to \$1,000,000 excess earnings were thus distributed after 6 per cent interest had been paid on capital and certain reserves set up.

Kingship Is No Sinecure

Ruler's Life Is a Busy One Says Famous Portrait Painter

It is disclosed that there is a portrait of King George painted just before his recent illness which has not yet been seen by the public.

Frank O. Salisbury, who painted it, depicts the King making the traditional gift of gold and silver to the poor during the installation ceremony of the Knights of the Honourable Order of the Bath. The scene, which has never before been painted, shows the King in full regalia, with his hands clasped in prayer, and the various personages who figure in the case individually to sit for their portraits.

When King George arrived at Mr. Salisbury's studio the enormous canvas was complete except for his own picture. When the King inspected it he began to laugh.

"My sword," he said, "you have painted me as an admiral's uniform and have given me a Field Marshal's sword. You didn't think I would no little detail like that, did you?"

To remedy matters, the King sent to the studio his elaborate sword which he had as an Admiral of the Fleet. On its beautiful blade are engraved the names of all the warships with which the King was associated while during his naval career.

Just how busy a man King George has been in his life might be gathered from Mr. Salisbury's reminiscences. "So far as I have observed," he said today, "Kingship is no sinecure. I received an appointment for the first sitting for a portrait of his Majesty on one day. On the next day, at 11 o'clock, and during the next hour watched the King decorate soldiers, shake such of them by the hand and with graceful and dignified gestures make a number of nervous young heroes happy. He had been going it since 10 o'clock that morning. And had arisen at 6 o'clock to accomplish his day's work."

"At noon he sat for his portrait. He was very tired, but he was fresh. As I was leaving, he said, 'I have not been fair to you, I am afraid, because I am sure I have shown signs of drooping a number of times.' At that period the King had not had more than two weeks' vacation in five years."

"The Prince of Wales is also an extraordinarily busy man. He was to sit for me at 4 o'clock one afternoon. He noticed all morning the south of England to perform some public function. In the afternoon, without any lunch, he motor-cycled to Aldershot, where he reviewed the troops. Precisely at 5 o'clock he arrived at my studio in London, weary still with lunch, but he had to deliver an important address before a distinguished gathering at dinner. He had his speech with him and asked me if I would mind if he ran over it during the sitting."

"While I painted, the Prince studied his speech, and at 6 o'clock he left to prepare himself for the evening."

Did Not Sound So Good

"I don't know whether to accept this testimonial or not," mused the hair-restorer man.

"What's the matter with it?" demanded the advertising manager.

"Well," explained the boss, "the man writes: 'I used to have three bald spots on the top of my head, but since using a bottle of your hair restorer, I have only one.'"

Production Of Cobalt

The world's output of cobalt metal and salts is now controlled by African and Canadian producers, who also, to a large extent, control the available raw materials.

CONSTIPATION RELIEVED

CARTER'S

QUICKLY

This Powerful Laxative will move the bowels without any pain and depressing after-effects. Sick Headache, Indigestion, Biliousness, Bad Constipation, and all ailments arising from the bowels, can be easily relieved by Dr. Carter's tiny, green coated pills. They are free from calomel and poisonous drugs. All Druggists 25c and are free.

CARTER'S LITTLE PILL

WORLD HAPPENINGS BRIEFLY TOLD

The Kellogg anti-war treaty has been ratified by the Senate at Washington.

An increase of \$25,000,000 has been approved by the U. S. appropriations committee for prohibition enforcement.

Captain Hermann Koesel, pilot of the first westward trans-Atlantic airplane, Bremen, was injured at Arosa, Switzerland, when he crashed while sking.

American "Friends of the Prince of Wales" have come forward with an anonymous gift of \$100,000 for the relief of distress in the coal fields. It was announced in London.

It is understood the salary of Sir Basil Blackett, newly appointed chairman of the merger company controlling Imperial wireless and cable communication will be \$10,000 a year.

A fund opened by a Toronto newspaper for relief of the unemployed of Great Britain reached a total of \$28,000. The money was sent to swell the Lord Mayor's fund being raised throughout Britain.

It has been decided that the United Service Institute, a scientific and literary body composed of military, naval, air force and Royal Mounted Police officers of the capital and district, is to be organized and incorporated.

An attempt is being made to persuade a 14-year-old Turk to leave Canada as mascot of a football team according to Z. G. Bejaffet, of Constantinople. Two sons, aged 12 and 10, are assisting in the attempt to persuade him.

Searchers recovered the bodies of three Alpine climbers who were buried by an avalanche while climbing Mount Jove with eight other climbers. The accident occurred near the summit of the mountain, which is 8,000 feet high.

THOUSANDS OF MOTHERS USE NO OTHER MEDICINE

Baby's Own Tablets Are the Ideal Remedy For Babies and Young Children

Canadian mothers are noted for the care they give their little ones; the health of the baby is most jealously guarded and no mother is at all ways on the lookout for a remedy which is efficient and safe. Baby's Own Tablets are the ideal toilet powder. Thousands of mothers have found such a remedy in Baby's Own Tablets and many of them use nothing else for the ailments of their little ones. Among them is Mrs. Howard King, of Truro, N.S., who writes: "I can strongly recommend Baby's Own Tablets to mothers of young children as I know of nothing to equal them for little ones."

Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

An editorial typist has lost her job for sending this to the contributor. "The editor regrets that he is unable to make use of the enclosed owing to lack of space."

The Friend of All Sufferers.—Dr. Thomas' Electric Oil is a valuable remedy to all that have rheumatism. It holds out hope to everyone and realizes it. It is a liniment that has the blessing of half a continent. It is on sale everywhere and can be found wherever equipment for.

Disgraced Patron (having cried me)—"I've never seen a rotten picture!"

Comedian—"Ever had yer photo took?"

Always Keep Cuticura Preparations On Hand

The Soap, because of its absolute purity and excellent properties, is unsurpassed for everyday use. Assisted by Cuticura Ointment, it does much to keep the skin healthy. Cuticura Shaving Soap makes shaving easy for the most delicate men. Cuticura Cream is the ideal toilet powder.

Prepared by Dr. J. C. Williams, Brockville, Ont.

Sole Canadian Agents: The Dr. Williams' Medicine Co., Brockville, Ont.

Industrial Manitoba

Agriculture Has Now To Take Second Place To Manufacturing In Western Provinces.

Agriculture now has to take second place to industrial manufacturing in Manitoba, according to figures of the Industrial Development Board. An estimate made by the Board places the output of manufactured goods against "Flu" in 1928 at \$103,252,000, as compared with \$132,000,000 during 1927. The agricultural wealth produced in 1927 was placed at \$147,000,000.

"Flu" "Flu" "Flu" It Is Everywhere

DANGEROUS PNEUMONIA MAY FOLLOW UNLESS A GOOD RECOVERY IS MADE

With so much Grippe and Flu about, no one can afford to neglect even a simple cold. For a real protection against pneumonia, experienced nurses advocate the following simple treatment:

Put a teaspoonful of Catarrhine and bring to a boil. Bend over the pan. Let the steam rise so you can breathe in the vapor deep. The healing fumes of Catarrhine will quickly dislodge your nose, throat and lungs. Flu germs are destroyed.

You can prevent Grippe, Flu and Influenza by using Catarrhine. It is healing, soothing, safe and efficient. To stop colds, sore throat, or any other ailment of the upper respiratory tract, use Catarrhine. Even to sit in a room with Catarrhine Vapor rising from a pan of boiling water is a wonderful protection to children and adults alike from the germs of colds and coughs. All druggists sell Catarrhine, 50c a bottle.

Platinum In Canada

With the exception of a few very curious cases of platinum obtained from the black sands of British Columbia, all the Canadian platinum and alloyed with gold is the product of the Sudbury, Ontario, nickel-copper matte. The precious metal residues are allowed to accumulate over irregular periods before being treated, so that recoveries do not have any definite relation to the quantity of matte treated in any particular year.

Will Burn Tree

Burning out the old St. Lawrence River will be attempted by Dr. Howard T. Barnes, of McGill University, who says the government has made an agreement with the department of marine and fisheries, the purpose being to free Montreal harbor from the grip of winter ice by burning out the old river bed, thus making it shallower and preventing the flooding of the country between it and St. Lawrence.

Offer Reward for Cancer Cure

The grand council of the British Empire cancer campaign has announced approval of an offer of two figures of \$25,000 each, in 1921 and 1922, for the best original piece of work in the investigation of cancer carried out in the British empire.

Canada's Iron Industry

Hamilton and Sault Ste. Marie in Ontario, and Sydney, in Nova Scotia, are at present the great centres of the iron industry in Canada.

Milker's Worm Powders not only exterminate intestinal and other worms, but they are a remedy for many other ailments of children. They strengthen the young stomach against biliousness and are tonic in their effects where the child suffers from loss of appetite. In feverish conditions they will be found useful and they will serve to allay pain and griping in the stomach, from which children so often suffer.

Medical men will continue to walk in Bermuda. The House of Assembly has refused to make exceptions to the law prohibiting use of cars on the island.

Use Minard's Liniment for the Flu.

Times change, and now the parent who provides spending money and doesn't interfere is called a good recent instead of a fool.

The silencer for firearms was invented by Maxim in 1900.

First American Forest Law

Was Written In Massachusetts Colony On March Twenty-Ninth, 1628

The Pennsylvania department of forests and waters at Harrisburg, recently conducted an investigation revealing that the first American forest law was written in the New Plymouth Colony, in Massachusetts.

The original American forest law read as follows:

"Orders agreed on several times for the general good of the Colony: 'It was decreed by the Court held on the 29, of March Anno, 1628. That for the preventing of which inconvenience, as does, and may befall the plantation by the want of timber, that no man of what condition soever sell or transport any manner of woods, or frames, for houses, planks, boards, shingles, shalop, boats, canoes or what so ever may tend to the destruction of timber afterwards.'

Columbus As A Spaniard

Document Found Recently Would Indicate Birthplace of Explorer

An Abing In Spain. A Portuguese parchment, a Spaniard, mentioned that place as having been the birthplace of Christopher Columbus. It bears out the theory that the discoverer of America was a Spaniard and not a native of Genoa, Italy. The document contains a description of the burial of Columbus and said that the Duke of Veragua, descendant of the mariner, sold the 14th, 15th and 16th centuries on which stood the building where Columbus was born.

Theory Of Relativity

Prof. Einstein Places Great Value On A Manuscript He Has

On a manuscript of five pages which it took him ten years to complete and which he considers of more importance than his widely discussed theory of relativity. The manuscript contains mathematical and physical formulas applying the theory. It is a treatise in abstract mathematics dealing with the problem of merging mechanics and electric-dynamics.

Expensive Conversation

It costs big money to indulge in telephone conversations. A London visitor recently called an American business associate and talked 30 minutes. His bill was close to \$1,425.

A pleasant medicine for children is Mother Gray's Worm Expeller, and it is excellent for driving worms from the system.

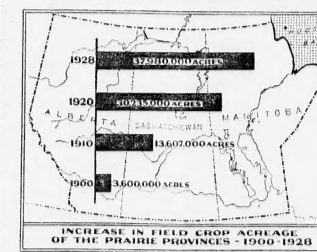

Saskatchewan mined 470,000 tons of coal during 1928, according to an announcement received from Ottawa. This is the same amount as was produced in 1927.

Groundpulp Pulped

Groundpulp pulped 58 per cent of the total quantity of pulp made in Canada in 1928.

The difference between learning to drive a motor car and learning to play golf is that when you learn to play golf you don't hit anything.

THE POWER OF WESTERN GROWTH

Contrasted with its spectacular speed in pre-war days, the course of prairie settlement in recent years has seemed slow and subdued. But an matter of cold fact, despite the absence of sensational features, the expansion of agriculture on the prairie has been proceeding with tremendous power. The rate of advance, as indicated by Dominion Bureau of Statistics reports, is little short of amazing. Between 1928 and 1929, Manitoba, Saskatchewan, and

FLU-GRIP WICKS

Check before it starts. Rub on—rub in—rub out. Over 21 Million Sold Yearly

Teeth and Health

Insured by The Canadian Dental Association. By The Saskatchewan Dental Society.

WEIGHING OF FOOD

You have suffered the annoying experience of having stringy food, wedge between your teeth; and you wonder what can be done to remedy it.

Normally, teeth should be tight together with rounded contacts at when two marbles touch; but through the decay of the teeth from tooth "drifting" this contact is lost.

The food then "jams" between the teeth and is held there until released—with what result?

Obviously, decay is liable to be incited in this area.

Then follows the destruction of this wedge shaped tissue between the teeth; a "pocket" is formed, which, thus injured, they lose their "tone" and fall an easy prey to the microorganisms that cause disease.

You see, then, what grave damage can result from so simple a cause. Now, the remedy. It is not the tooth, but the jaw, which must be re-erected, may be further harmed, but the jaw can be repaired by a temporary relief.

But, where this "wedging" is first noticed, the insertion of a filling, or one or both of the involved teeth should be crowned, which will clear up the trouble. This may even necessitate the removal of a fully filling already in place, but far better this than to suffer the prolonged discomfort from "wedging" food, with its train of consequences, should it go unchecked.

Cutting Corns With Razor Leads To Lock-Jaw

Don't cut corns with an old razor blade. Infection, followed often by death may result from prying corns with an infected razor. Quick, safe relief comes from using PUTNAM'S CORN EXTRACTOR. If afflicted with corns, callouses or sore foot-lumps, use "PUTNAM'S"—It's reliable, and sure to relieve you. No pain, no soreness, quick relief from sore corns comes to all who use PUTNAM'S PAINLESS CORN EXTRACTOR. 25c at all dealers.

Modern Books Short Lived

The life of modern books is much too short. When a good novel comes out, it is like a line of trains which seldom lasts beyond a year. After that it falls out of discussion, instead of regiments of readers there are none at all. In July 200,000 people may be seeking a book and talking about it, and even reading it, but it is then with the fire, the matter is dropped entirely. When a popular success begins to decline it falls faster than an airplane.

Corn cause much suffering, but Holloway's Corn Remover offers a speedy, sure, and satisfactory relief.

The latest wonder of agriculture, is a cabbage plant which produced six heads of cabbage in turn, one above the other.

Reveals Secret Of Stradivarius Violin

Letter Written By Famous Maker Found At Bergamo, Italy

Italy expects again to lead in the manufacture of the world's best violins, as she did before Stradivarius, the master violin-maker of Cremona, took the secrets of his craft to his grave two centuries ago.

The method by which Stradivarius made the most precious violins in existence—how he treated woods and prepared varnish—has been unearthed, and is now in the hands of the Italian authorities, which has requested the documents descriptive of his methods.

Fumbling in an ancient desk which he had just bought, an Italian antiquarian found a secret drawer in, which he found what appeared to be a number of manuscripts written by Stradivarius, including a letter to a priest in which he described in detail how he made his famous violins.

The finder offered to sell the manuscripts to a Milan violin-maker, but the local authorities learned of his existence and intervened.

The owners of the bit of furniture in which the long-buried secret was hidden, are colonial descendants of the friend to whom Stradivarius, revealing his methods, were written.

Stradivarius died in 1728, and two years later the priest to whom the letters were addressed moved from Cremona to Bergamo. After his death, the desk was sold at auction, reaching its present owner after changing hands several times.

Italian violin enthusiasts have vainly hunted for Stradivarius' secret for two hundred years. Its apparent discovery has made an enormous impression in Bergamo, where it is reported that the manuscripts found in the ancient desk included also the materials for an autobiography by the famous craftsman.

Trans-Canada Highway

That the government of Saskatchewan should charge upon the Federal government the availability of the construction and maintenance of a trans-Canada highway, was the subject matter of a resolution notice of which was given in the Legislature by D. A. McNeill, K.C., Regina City.

Men outnumber women in the Irish Free State; the number of males being 1,505,889 compared with 1,463,165 females.

Honey production in British Columbia in 1928 is estimated at \$216,650 and bee-keepers at \$5,000. This yield is from 19,212 hives.

One million, four hundred and ninety thousand, three hundred and forty cows supplied milk to creameries in Canada during 1928.

Customer (doubtfully): "Is it a pedagogue dog?"

Dealer: "Pedagogue? Why, if this dog could talk he wouldn't speak to either of us."

More than half of the known elements are metals—about 50 in all.

Must Keep Drama Clean

Bransby Williams, English Actor, Deplores Modern Theatre

"I am ashamed of the way in which the stage is being run in the United States, Canada, and Great Britain," Bransby Williams, English actor, said in addressing the Brockville Rotary club, adding that, for the sake of the rising generations, the stage has got to be kept clean and the pictures "must be kept cleaner." In his picture the theatre, he said, boys and girls are today reading texts that are despoiling the English language, and on the stage itself there appears to be no longer room for good, clean, beautiful plays, while the bookstores are full of questionable reading matter.

Keep Your Health TO-NIGHT TRY

B. S. Sexton Proprietor A. Haskin

Thursday, Feb. 21, 1929

Mrs. Wm. Ellis was very ill
over the week end.

Russell Haynes, returned from
a visit to Regina, this week.

Ed. Barnett, is reported as
being confined to the house
with sickness.

Messrs. A. Niwa and J. Paw-
lak left on a trip to Calgary,
this morning.

Mrs. J. Stouley and child-
ren, have been confined to
the house during the past week
with the "flu."

Mr. and Mrs. M. G. Miller,
left on this morning's train for
Calgary.

Glen Russell, arrived in town
from Medicine Hat, Wednes-
day.

A link from Leader is sur-
ling in the local newspaper. Mr.
McGowan, H. Blott, T. Mc-
Gowan and H. Cox are the mem-
bers.

Mr. and Mrs. F. Chapman, of
Vanduse, who were brought to
town recently, are both re-
ported to be very ill.

The Leader rink have been
furnishing tough opposition for
their opponents in the hospital.

Bank McDonald, H.C. agent
at Biddison, held a two-day
tractor school on Tuesday and
Wednesday of this week in the
Biddison hall. On Wednesday
night a big dance was to be
held with the Duche's orchestra
supplying the music. Dad
Neilson, was floor manager.

A report of the Curlers' Sup-
per will be in our next issue.

Mrs. E. S. Sexton left on
Saturday morning for Cal-
gary on a visit to her daughter,
Kathleen and friends in Cal-
gary.

Don. MacRae and F. G. San-
doncock, left on Tuesday morn-
ing for Calgary, where they
are attending the Retail Mer-
chants Convention.

Mrs. A. K. McNeill, has been
confined to the house with
throat trouble the past few
days.

"Silver-Tongued Frank"

Speaking of Frank Spar-
row's ability as an announcer,
the Drumheller Mail says:
"... The announcement before
a thousand fans, in a building
the size of the Arena, is a
task for one, who does not
possess the voice of the silver-
tongued Frank Sparrow, and
quietness will assist the an-
nouncer to put over his mes-
sage."

"Her notice is rather good
looking, eh?"

"Don't say 'kneecap' say
'kneecap'."

Energy will do anything that
can be done in this world; and
no circumstances no opportu-
nities, will make a man without
it.

ONIONS (Experimental Farm Note)

It may be said of the onion
crop that a little goes a long
way. This powerful veget-
able is effective in small quan-
tities.

"The onion alone, tucked within
the bowl
And scarce suspected, animates
the whole"

However, at least a small
quantity is desired at all times,
and many people are fond of
sliced onions as a side dish,
and of fried onions with meat
courses.

Prevent major problems in
the field avoiding root injury and
having the crop mature thor-
oughly so that it will keep for
eight months in dry storage.

At the Experimental Station,
Morden, Man., onion growers
have done extensive injuries in
recent years. This past season
four treatments were given.
Best results came from a solu-
tion of one-fifth ounce of sod-
ium arsenite and one pint mo-
lasses in one gallon of water,
which was placed in small dis-
tributed in the patch from
spring until early summer. The
treatment giving next best con-
trol was charcoal applied to the
surface of the ground near the
plants.

Other means of preventing
loss from maggot injury are the
growing of winter onions, rat-
ing transplants and the use of
soda. Egyptian Top and White
Welsh onions are hardy peren-
nials. The latter is in good fav-
or and supplies abundant evidence
of green onions from late April until
the favor becomes strong in
June. Onion seed sown in the
house during first weeks of
March, later transplanted and
finally set in the field in late
May, gives the earliest trans-
plant. The difficulty with the trans-
plants is the tendency to very
rapid, sappy growth, which con-
dition is conducive to sprout-
ing of the bulbs in early winter.

The sets do not grow so rap-
idly, but besides furnishing early
green onions, give a larger
crop which tends to mature
early and harden up well.

General impressions of types
are that white onions tend to be

Farm for Sale

Three-quarter Section Farm for Sale,
440 acres cultivated. Good buildings,
5 miles S. West of Biddison; 1 mile from
graded road; 2 miles from Leland Hall.

An INVITATION

SPECIAL PRESENTATION of The Outstanding Chevrolet of Chevrolet History

EVERYONE is familiar with Chevrolet's brilliant
record of past success, but the new Chevrolet
represents the most spectacular of all its achievements
... introducing a new conception of motor car value.
It is with pleasure, therefore, that we announce our
ability to secure the services of a special presentation of the
expert to conduct for you a Chevrolet History.

This presentation comprises a complete, thorough ex-
planation of this sensational new car—and, in addi-
tion, a special series of illuminated slides and a motion
picture of unusual interest entitled "With Chevrolet
Across Canada."

Everyone is interested in the latest automobile de-
velopments! Everyone is cordially invited to attend!
Make a note of the time and place.
